9. Further information
Please read the guidelines below then visit the journal’s submission site https://mc.manuscriptcentral.com/jpejournal to upload your manuscript. Please note that manuscripts not conforming to these guidelines may be returned.

Only manuscripts of sufficient quality that meet the aims and scope of Journal of Patient Experience will be reviewed.

As part of the submission process you will be required to warrant that you are submitting your original work, that you have the rights in the work, that you are submitting the work for first publication in the Journal and that it is not being considered for publication elsewhere and has not already been published elsewhere, and that you have obtained and can supply all necessary permissions for the reproduction of any copyright works not owned by you.

1. Open Access

*Journal of Patient Experience* is an open access, peer-reviewed journal. Each article accepted by peer review is made freely available online immediately upon publication, is published under a Creative Commons license and will be hosted online in perpetuity. Publication costs of the journal are covered by the collection of article processing charges which are paid by the funder, institution or author of each manuscript upon acceptance. There is no charge for submitting a paper to the journal.

For general information on open access at SAGE please visit the [Open Access page](#) or view our [Open Access FAQs](#).

[Return to top]

2. Article processing charge (APC)

*Journal of Patient Experience* does not have any article processing charges.

[Return to top]

3. What do we publish?

3.1 Aims & scope

Before submitting your manuscript to *Journal of Patient Experience*, please ensure you have read the [Aims & Scope](#).

3.2 Article types

Thank you for considering to publish your article in the Journal of Patient Experience. Manuscripts submitted to JPE should be of interest to a broad audience and are accepted from a variety of professional disciplines. JPE welcomes original manuscripts of the following types:

**Research Articles**: Research articles should present original research that describes outcomes, processes, or applications that enhance the patient experience. A range of methods, including qualitative research, quantitative research, and experimental studies are accepted. Papers should include a title page, an abstract, introduction, methodology, results, discussion, and conclusion sections. [More information](#).
**Case Reports:** The purpose of the case report is to share experiences that others may learn from and replicate. Case reports describe a specific problem and then present a potential solution. These should not exceed 1,500 words in length, must have a title page, an abstract of no more than 150 words, an introduction, description, results, lessons learned, conclusions and up to 20 references, one figure and one table.

**Patient Experience Research Briefs:** Patient Experience Brief Reports describe limited results of original research in an abbreviated format. These studies are not appropriate for full-length manuscripts but may report a new methodological approach or describe preliminary research results. For example, this format is appropriate for original studies with smaller sample sizes. The manuscript should address an important patient experience issue, clearly describe the implications of methodological limitations, and adhere to author guidelines. Include sample sizes, methods, primary results, and limitations. Do not exceed 1,500 words (excluding abstract and references). Include an abstract of no more than 100 words, 15 references, and two tables or figures. Include the following headings: Introduction, Method, Results, Discussion, Limitations, and References.

**Perspectives:** Brief, thoughtful communications on current issues pertinent to the patient experience. Perspectives provide a timely, new insight on implications within the broad domain of patient experience. Authors should be experts in their fields, include an element of opinion, and provide a certain depth of analysis and argument. These are not research reports, or promotional pieces about an organization, product, or program. Articles should not exceed 1,200 words, 10 references, one figure and one table. No abstract is required.

**Special Interests:** JPE seeks personal narratives, reflections, essays, vignettes, poetry and other creative submissions by patients, caregivers, students, healthcare professionals and others who want to share experiences related to illness, healing, and giving or receiving care. Please review these guidelines before submission.

**Features:** Feature articles are miscellaneous articles which help to increase understanding of the patient experience. This may include articles that focus on reporting theory or methodological issues of interest to JPE’s readership or those that provide a review of work in a particular area. Features should be limited to 2,500 words, include an unstructured abstract of 150 words and no more than 50 references.

**Letters to the Editor:** Letters to the Editor are considered for publication provided they do not contain material that has been submitted elsewhere. Potential conflicts of interest must be disclosed during submission. Letters in reference to a JPE article must not exceed 200 words (excluding references), and must be received within four weeks after publication of the article. Letters not related to a JPE article must not exceed 500 words (excluding references). Letters should not exceed five references and one figure or table.

### 3.3 Writing your paper
The SAGE Author Gateway has some general advice and on how to get published, plus links to further resources.
3.3.1 Making your article discoverable
When writing up your paper, think about how you can make it discoverable. The title, keywords and abstract are key to ensuring readers find your article through search engines such as Google. For information and guidance on how best to title your article, write your abstract and select your keywords, have a look at this page on the Gateway: How to Help Readers Find Your Article Online

4. Editorial policies

4.1 Peer review policy
Following a preliminary triage to eliminate submissions unsuitable for Journal of Patient Experience all papers are sent out for review. The covering letter is important. To help the Editor in his preliminary evaluation, please indicate why you think the paper suitable for publication. If your paper should be considered for fast-track publication, please explain why.

The journal’s policy is to have manuscripts reviewed by two expert reviewers. Journal of Patient Experience utilizes a double-blind peer review process in which the reviewer and author’s names and information are withheld from the other. All manuscripts are reviewed as rapidly as possible, while maintaining rigor. Reviewers make comments to the author and recommendations to the Editor-in-Chief who then makes the final decision.

As part of the submission process you will be asked to provide the names of peers who could be called upon to review your manuscript. Recommended reviewers should be experts in their fields and should be able to provide an objective assessment of the manuscript. Please be aware of any conflicts of interest when recommending reviewers. Examples of conflicts of interest include (but are not limited to) the below:

- The reviewer should have no prior knowledge of your submission
- The reviewer should not have recently collaborated with any of the authors
- Reviewer nominees from the same institution as any of the authors are not permitted

You will also be asked to nominate peers who you do not wish to review your manuscript (opposed reviewers).

Please note that the Editors are not obliged to invite any recommended/opposed reviewers to assess your manuscript.

The Editor or members of the Editorial Board may occasionally submit their own manuscripts for possible publication in the journal. In these cases, the peer review process will be managed by alternative members of the Board and the submitting Editor / Board member will have no involvement in the decision-making process.

Journal of Patient Experience is committed to delivering high quality, fast peer-review for your paper, and as such has partnered with Publons. Publons is a third party service that seeks to track, verify and give credit for peer review. Reviewers for Journal of Patient Experience can opt in to Publons in order to claim their reviews or have them automatically verified and added to
their reviewer profile. Reviewers claiming credit for their review will be associated with the relevant journal, but the article name, reviewer’s decision and the content of their review is not published on the site. For more information visit the Publons website.

The Editor or members of the Editorial Board may occasionally submit their own manuscripts for possible publication in the journal. In these cases, the peer review process will be managed by alternative members of the Board and the submitting Editor/Board member will have no involvement in the decision-making process.

4.2 Authorship
Papers should only be submitted for consideration once consent is given by all contributing authors. Those submitting papers should carefully check that all those whose work contributed to the paper are acknowledged as contributing authors. The list of authors should include all those who can legitimately claim authorship. This is all those who:

(i) Made a substantial contribution to the concept or design of the work; or acquisition, analysis or interpretation of data,
(ii) Drafted the article or revised it critically for important intellectual content,
(iii) Approved the version to be published,
(iv) Each author should have participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Authors should meet the conditions of all of the points above. Each author should have participated sufficiently in the work to take public responsibility for appropriate portions of the content.

When a large, multicentre group has conducted the work, the group should identify the individuals who accept direct responsibility for the manuscript. These individuals should fully meet the criteria for authorship.

4.3 Acknowledgements
All contributors who do not meet the criteria for authorship should be listed in an Acknowledgements section. Examples of those who might be acknowledged include a person who provided purely technical help, or a department chair who provided only general support.

4.3.1 Writing assistance
Individuals who provided writing assistance, e.g. from a specialist communications company, do not qualify as authors and so should be included in the Acknowledgements section. Authors must disclose any writing assistance – including the individual’s name, company and level of input – and identify the entity that paid for this assistance.

It is not necessary to disclose use of language polishing services.

Please supply any personal acknowledgements separately to the main text to facilitate anonymous peer review.
4.4 Funding
Journal of Patient Experience requires all authors to acknowledge their funding in a consistent fashion under a separate heading. Please visit the Funding Acknowledgements page on the SAGE Journal Author Gateway to confirm the format of the acknowledgment text in the event of funding, or state that: This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.

4.5 Declaration of conflicting interests
It is the policy of Journal of Patient Experience to require a declaration of conflicting interests from all authors enabling a statement to be carried within the paginated pages of all published articles.

Please ensure that a ‘Declaration of Conflicting Interests’ statement is included at the end of your manuscript, after any acknowledgements and prior to the references. If no conflict exists, please state that ‘The Author(s) declare(s) that there is no conflict of interest’.

4.6 Research ethics and patient consent
Medical research involving human subjects must be conducted according to the World Medical Association Declaration of Helsinki.

For research articles, authors are also required to state in the methods section whether participants provided informed consent and whether the consent was written or verbal.

Information on informed consent to report individual cases or case series should be included in the manuscript text. A statement is required regarding whether written informed consent for patient information and images to be published was provided by the patient(s) or a legally authorized representative.

All research involving animals submitted for publication must be approved by an ethics committee with oversight of the facility in which the studies were conducted. The journal has adopted the Consensus Author Guidelines on Animal Ethics and Welfare for Veterinary Journals published by the Association of Veterinary Editors.

4.7 Reporting guidelines
The relevant EQUATOR Network reporting guidelines should be followed depending on the type of study. For example, all randomized controlled trials submitted for publication should include a completed CONSORT flow chart as a cited figure and the completed CONSORT checklist should be uploaded with your submission as a supplementary file. Systematic reviews and meta-analyses should include the completed PRISMA flow chart as a cited figure and the completed PRISMA checklist should be uploaded with your submission as a supplementary file. The EQUATOR wizard can help you identify the appropriate guideline.
Other resources can be found at NLM’s Research Reporting Guidelines and Initiatives.

5. Publishing policies

5.1 Publication ethics
SAGE is committed to upholding the integrity of the academic record. We encourage authors to refer to the Committee on Publication Ethics’ International Standards for Authors and view the Publication Ethics page on the SAGE Author Gateway.

5.1.1 Plagiarism
*Journal of Patient Experience* and SAGE take issues of copyright infringement, plagiarism or other breaches of best practice in publication very seriously. We seek to protect the rights of our authors and we always investigate claims of plagiarism or misuse of published articles. Equally, we seek to protect the reputation of the journal against malpractice. Submitted articles may be checked with duplication-checking software. Where an article, for example, is found to have plagiarized other work or included third-party copyright material without permission or with insufficient acknowledgement, or where the authorship of the article is contested, we reserve the right to take action including, but not limited to: publishing an erratum or corrigendum (correction); retracting the article; taking up the matter with the head of department or dean of the author’s institution and/or relevant academic bodies or societies; or taking appropriate legal action.

5.1.2 Prior publication
If material has been previously published, it is not generally acceptable for publication in a SAGE journal. However, there are certain circumstances where previously published material can be considered for publication. Please refer to the guidance on the SAGE Author Gateway or if in doubt, contact the Editor at the address given below.

5.2 Contributor’s publishing agreement
Before publication SAGE requires the author as the rights holder to sign a Journal Contributor’s Publishing Agreement. *Journal of Patient Experience* publishes manuscripts under Creative Commons licenses. The standard license for the journal is Creative Commons by Attribution Non-Commercial (CC BY-NC), which allows others to re-use the work without permission as long as the work is properly referenced and the use is non-commercial. For more information, you are advised to visit SAGE’s OA licenses page

Alternative license arrangements are available, for example, to meet particular funder mandates, made at the author’s request.
6. Preparing your manuscript

6.1 Word processing formats
Preferred formats for the text and tables of your manuscript are Word DOC, RTF, XLS. LaTeX files are also accepted. The text should be double-spaced throughout and with a minimum of 3cm for left and right hand margins and 5cm at head and foot. Text should be standard 10 or 12 point. Word and (La)Tex templates are available on the Manuscript Submission Guidelines page of our Author Gateway.

6.2 Artwork, figures and other graphics
Tables and Figures: All tables and figures must be supplied as separate files and numbered in the order in which they are mentioned in the text. Graphs may be supplied as Excel spreadsheets (one per sheet). Other line drawings should be supplied in a vector graphic file format (e.g. .eps) with a resolution of 800 dpi.

Photographic illustrations: Illustrations and photos should be rendered with at least 300 dpi and in TIFF or JPEG formats. The required dimensions for cover art are at least 5x7 inches. With the exception of cover art, all color images will be printed in black and white. Color images will appear in color online.

For more guidance on the preparation of illustrations, pictures and graphs in electronic format, please visit SAGE’s Manuscript Submission Guidelines

Figures supplied in color will appear in color online.

6.3 Supplementary material
This journal is able to host additional materials online (e.g. datasets, podcasts, videos, images etc.) alongside the full-text of the article. These will be subjected to peer-review alongside the article.  For more information please refer to our guidelines on submitting supplementary files, which can be found within our Manuscript Submission Guidelines page.

6.4 Reference style
Journal of Patient Experience adheres to the SAGE Vancouver reference style. Please review the guidelines on SAGE Vancouver to ensure your manuscript conforms to this reference style. Authors should try to limit references to those that are essential or most relevant

If you use EndNote to manage references, you can download the SAGE Vancouver output file here.

6.5 English language editing services
We require that manuscripts meet standards of English language used for professional publication.
Authors seeking assistance with English language editing, translation, or figure and manuscript formatting to fit the journal’s specifications should consider using SAGE Language Services. Visit SAGE Language Services on our Journal Author Gateway for further information.

Authors might also consider utilizing the services of SPi, a non-affiliated company that offers Professional Editing Services to authors in their scholarly, scientific, technical, or medical manuscripts. SPi specializes in editing and correcting English-language manuscripts written by authors with a primary language other than English. Visit http://www.prof-editing.com for more information about SPi’s Professional Editing Services, pricing, and turn-around times, or to obtain a free quote or submit a manuscript for language polishing. Please be aware that SAGE has no affiliation with SPi and makes no endorsement of the company.

6.6 Cover art
Authors are invited to submit images for use on the cover of Journal of Patient Experience. Images sent for consideration on the cover are not required to be related to an article submitted to or published in the journal. Art should be reflective of an experience of care, health, illness, suffering or survival from the patient, provider, or another stakeholder's perspective. The author must own copyright to the image and grant JPE unrestricted free use of the image to be published on the cover of the journal as well as in other publications and marketing materials. If the image is selected, the author must be able to provide the file in TIFF format with a minimum resolution of 300 dpi. Payment is $100, includes two copies of the issue the work is featured in and a complimentary one-year subscription to the journal.

Cover image submissions should be sent to journal@patient-experience.org with a caption and complete credit information. Authors will be notified in a timely manner if their image is selected to appear on a cover.

7. Submitting your manuscript

7.1 How to submit your manuscript
Journal of Patient Experience is hosted on Editorial Manager, a web based online submission and peer review system. Visit https://mc.manuscriptcentral.com/jpejournal to log in and submit your article online.

IMPORTANT: Please check whether you already have an account in the system before trying to create a new one. If you have reviewed or authored for the journal in the past year it is likely that you will have had an account created. A tutorial on how to use the system is available, but questions can also be sent to journal@patient-experience.org or 216-316-5787.

Before electronic submission, JPE recommends that authors review the checklist below to ensure they have all the necessary items ready for submission. To facilitate blinded peer review, the submission process will require that you create these documents as separate files which the system will then build into a PDF.

Checklist
1. Separate cover letter that includes a statement of disclosure of possible conflicts of interest
2. Separate title page should contain the full title of the manuscript, a short title, the author(s) name(s) and affiliation(s), and the name, postal and email addresses of the author for correspondence, the exact word count for the manuscript (not including appendices, figures/tables or the references list), and details of competing interests and other declarations.
3. Manuscript
4. Separate figure files, separate table files, separate supplementary files, if any
5. Separate personal acknowledgements, if any

Authors can save their work in progress, proof and submit revisions, check on the status of their article, update personal information, and review their past submission records. Decisions are sent to authors via email. If you encounter any problems during the submission process, please contact the Editorial Office at journal@patient-experience.org

[Return to top]

7.2 Title, keywords and abstracts
Please supply a title, short title, an abstract and keywords to accompany your article. The title, keywords and abstract are key to ensuring readers find your article online through online search engines such as Google. Please refer to the information and guidance on how best to title your article, write your abstract and select your keywords by visiting the SAGE Journal Author Gateway for guidelines on How to Help Readers Find Your Article Online.

[Return to top]

7.3 Information required for completing your submission
Provide full contact details for the corresponding author including email, mailing address and telephone numbers. Academic affiliations are required for all co-authors. These details should be presented separately to the main text of the article to facilitate anonymous peer review.

You will be asked to provide contact details and academic affiliations for all co-authors via the submission system and identify who is to be the corresponding author. These details must match what appears on your manuscript. At this stage please ensure you have included all the required statements and declarations and uploaded any additional supplementary files (including reporting guidelines where relevant).

[Return to top]

7.4 ORCID
As part of our commitment to ensuring an ethical, transparent and fair peer review process SAGE is a supporting member of ORCID, the Open Researcher and Contributor ID. ORCID provides a persistent digital identifier that distinguishes researchers from every other researcher and, through integration in key research workflows such as manuscript and grant submission, supports automated linkages between researchers and their professional activities ensuring that their work is recognized.
We encourage all authors to add their ORCIDs to their SAGE Track accounts and include their ORCIDs as part of the submission process. If you don’t already have one you can create one [here](#).

### 7.5 Permissions
Authors are responsible for obtaining permission from copyright holders for reproducing any illustrations, tables, figures or lengthy quotations previously published elsewhere. For further information including guidance on fair dealing for criticism and review, please visit our [Frequently Asked Questions](#) on the SAGE Journal Author Gateway.

### 8. On acceptance and publication
If your paper is accepted for publication after peer review, you will first be asked to complete the contributor’s publishing agreement. Once your manuscript files have been check for SAGE Production, the corresponding author will be asked to pay the article processing charge (APC) via a payment link. Once the APC has been processed, your article will be prepared for publication and can appear online within an average of 30 days. Please note that no production work will occur on your paper until the APC has been received.

#### 8.1 SAGE Production
Your SAGE Production Editor will keep you informed as to your article’s progress throughout the production process. Proofs will be sent by PDF to the corresponding author and should be returned promptly. Authors are reminded to check their proofs carefully to confirm that all author information, including names, affiliations, sequence and contact details are correct, and that Funding and Conflict of Interest statements, if any, are accurate. Please note that if there are any changes to the author list at this stage all authors will be required to complete and sign a form authorizing the change.

#### 8.2 Continuous publication
One of the many benefits of publishing your manuscripts in an open access journal is the speed to publication. Your article will be published online in a fully citable form with a DOI number as soon as it has completed the production process. At this time it will be completely free to view and download prior to its inclusion in a final journal issue which significantly reduces the lead time between submission and publication. Check the ‘Latest Articles’ tab on the journal website for the latest published content. Articles are batched every quarter into issues and are then available in the Archive.

#### 8.3 Promoting your article
Publication is not the end of the process! You can help disseminate your paper and ensure it is as widely read and cited as possible. The SAGE Author Gateway has numerous resources to help
you promote your work. Visit the Promote Your Article page on the Gateway for tips and advice. In addition, SAGE is partnered with Kudos, a free service that allows authors to explain, enrich, share, and measure the impact of their article. Find out how to maximize your article’s impact with Kudos.

9. Further information
Any correspondence, queries or additional requests for information on the Manuscript Submission process should be sent to the Journal of Patient Experience editorial office as follows:

journal@patient-experience.org
