INDEX OF SUBJECTS  Volume 12, 1996

Abdominal and superficial sonography, American Registry of Diagnostic Medical Sonographers survey of, 18
Abdominal diameter–biparietal diameter difference, shoulder dystocia and, 243
Abstract reviews, 48, 99, 151, 193, 241
Adenosine echocardiography, vs. exercise echocardiography, in ischemia in coronary artery disease, 194
Adrenal hyperplasia, congenital, bilateral intratesticular masses in, 176
Adrenogenital syndrome, testicular tumors of, congenital adrenal hyperplasia and, 176
Age, gestational
temur length in, in Chinese population, 127
postnatal assessment of, femur length in, 198
American Institute of Ultrasound in Medicine (AIUM), President Peter Arger of, 299
American Registry of Diagnostic Medical Sonographers, survey of practice in abdominal and superficial sonography, 18
Amniotic fluid accumulation, in first trimester, 159
Aneurysm, extrahepatic portal vein, gray scale and color duplex sonography of, 93
Angiography with CT arterial portography, for hepatic hilar tumors, vs. ultrasonography, 103
Aorta
catherer-related embolization and, 242
thoracic, severe atherosclerosis of, transesophageal echocardiography in, 101
Aortic arch anomalies, fetal echocardiography and, 224
Aortic dissection
catheterization correlation between elevated serotonin and carcinoid heart disease and, 158
embolization in, 242
Aortic root size, echocardiographic reference values for, 102
Appendicitis, Doppler sonography and, in children and young adults, 197
ARDMS, name change for, 239 (letter)
Arger, Peter, profile of, 299
Arterial blood flow, female infertility and, 281
Arthritis, psoriatic, retrocalcaneal bursitis in, 211
Calcifications, hepatic, fetal, 49
Campomelic dysplasia, gonadal dysgenesis and, prenatal diagnosis of, 72
Cancer. See also Tumors
gallbladder, unsuspected, sonography of, 48, 154
liver, vasculature of, on power vs. conventional color Doppler sonography, 241
prostate, staging of, transrectal sonography vs. endorectal MRI in, 100
Carcinoid heart disease, elevated serotonin and, cardiac catheterization and echocardiographic assessment for, 158
Cardiomyopathy, hypertrophic, prevalence of, electrocardiographic analysis of, 157
Catheterization
cardiac correlation between elevated serotonin and carcinoid heart disease and, 158
embolization in, 242
Cerebrovascular accident, risk of, left atrial size and, 157
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endocardial edge detection in, 195
infective endocarditis in, echocardiography in, 50
Cloacal persistence, prenatal diagnosis of, 136
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cranial aneurysm, prenatal diagnosis of, 136
Dacryocystoceles, prenatal diagnosis of, 86
Biopsy, breast
cancer, ultrasound-guided core biopsy of, pseudoaneurysm in, 220
ultrasound-guided mammotomy for, 113
Blood volume, fractional moving, power Doppler ultrasonographic estimation of, 51
Ultrasound of Superficial Structures: High Frequencies, Doppler and Interventional Procedures (Solbiati & Rizzatto), 97
Brachial arteries, discordant blood flow velocity in, in growth retarded fetuses, 50
Breast, ultrasound-guided core biopsy of, pseudoaneurysm in, 220
Bursitis, retrocalcaneal, in psoriatic arthritis, 211
Calcifications, hepatic, fetal, 49
Campomelic dysplasia, gonadal dysgenesis and, prenatal diagnosis of, 72
Cancer. See also Tumors
gallbladder, unsuspected, sonography of, 48, 154
liver, vasculature of, on power vs. conventional color Doppler sonography, 241
prostate, staging of, transrectal sonography vs. endorectal MRI in, 100
Carcinoid heart disease, elevated serotonin and, cardiac catheterization and echocardiographic assessment for, 158
Cardiomyopathy, hypertrophic, prevalence of, electrocardiographic analysis of, 157
Cystic body paragangliomas, 78
Catheterization
cardiac correlation between elevated serotonin and carcinoid heart disease and, 158
embolization in, 242
Cavious transformation of portal vein, Doppler sonography in, 51, 160
Cellulitis, deep vein thrombosis and, 170
Central lines, upper extremity deep vein thrombosis and, 199
Central venous pressure, elevated, sniff test for, 27
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endocardial edge detection in, 195
infective endocarditis in, echocardiography in, 50
Cloacal persistence, prenatal diagnosis of, 136
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endocardial edge detection in, 195
infective endocarditis in, echocardiography in, 50
Cloacal persistence, prenatal diagnosis of, 136
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endocardial edge detection in, 195
infective endocarditis in, echocardiography in, 50
Cloacal persistence, prenatal diagnosis of, 136
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endocardial edge detection in, 195
infective endocarditis in, echocardiography in, 50
Cloacal persistence, prenatal diagnosis of, 136
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endocardial edge detection in, 195
infective endocarditis in, echocardiography in, 50
Cloacal persistence, prenatal diagnosis of, 136
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endocardial edge detection in, 195
infective endocarditis in, echocardiography in, 50
Cloacal persistence, prenatal diagnosis of, 136
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endocardial edge detection in, 195
infective endocarditis in, echocardiography in, 50
Cloacal persistence, prenatal diagnosis of, 136
Cerebral hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Cerebrovascular accident, risk of, left atrial size and, 157
Children
diastolic evaluation in, echocardiographic automatic endo
transvaginal, arterial blood flow in female infertility and, 281
Color flow duplex scanning, in upper arm deep vein thrombosis, with central lines, 199
Congenital adrenal hyperplasia, bilateral intratesticular masses in, 176
Congenital heart disease, four-chambered view of fetal heart for, 69
Congestive heart failure, Doppler mitral flow patterns in, left/right lateral decubitus positions and, 193
Coronary artery disease, ischemia in, adenosine vs. exercise echocardiography in, 194
Cross-training, 151 (letter)
Cyst, intestinal duplication, 39
Dacryocystoceles, bilateral, prenatal diagnosis of, 86
Deep vein thrombosis
in high-risk trauma patients, Doppler color flow imaging surveillance of, 103
in intravenous drug abusers, color flow duplex scanning and, 199
upper extremity, central lines and, 199
Diabetes mellitus, shoulder dystocia and, prediction of, 243
Diuresis duplex Doppler sonography, in obstructive vs. nonobstructive hydronephrosis, 100
Diverticulitis, sigmoid, 83
Dobutamine-atropine stress echocardiography, 254
in ischemic left ventricular dysfunction, 195
Doppler color flow imaging surveillance, of deep vein thrombosis, in high-risk trauma patients, 103
Doppler echocardiography
mitral flow patterns on, left/right lateral decubitus position and, 193
in mitral regurgitation, 102
Doppler mitral flow patterns, in congestive heart failure, left/right lateral decubitus positions on, 193
Doppler ultrasonography
in acute unilateral epididymitis/orchitis, quantitative criteria for, 48
in antepartum pyelonephritis, 99
appendicitis and, in children and young adults, 197
in cavernous transformation of portal vein, 51, 160
color
in acute unilateral epididymitis/orchitis, quantitative criteria for, 48
arterial blood flow in female infertility and, 281
endorectal, of primary and recurrent rectal wall tumors, 104
of patent needle tracts, after femoral arterial catheterization, 160
power, vs. conventional, liver tumor vasculature and, 241
transvaginal, arterial blood flow in female infertility and, 281
of discordant blood flow velocity in brachial arteries, in growth retardation, 50
diuresis duplex
in obstructive vs. nonobstructive hydronephrosis, 100
in obstructive vs. nonobstructive hydronephrosis, 100
in estimation of fractional moving blood volume, 51
in nutcracker syndrome, 99
power
color vs. conventional, of liver tumor vasculature, 241
in estimation of fractional moving blood volume, 51
vs. mean frequency-based color Doppler ultrasonography, 154
pyelonephritis and, in children, 197
in soft-tissue hyperemia, 158
pyelonephritis and, in children, 197
in scrotal inflammation, quantitative criteria for, 48
tissue, of myocardial velocity, color-coded measures for, 242
Doppler waveform analysis, of intrarenal arteries, in renal artery stenosis in transplanted kidneys, 159
Downsizing, personal accounts of, 231
Duplex ultrasonography
color coded, vs. venography, in preoperative imaging of varicose veins, 198
Doppler, for renal artery stenosis, 241
Duplication cyst, intestinal, 39

Echocardiography
adenosine vs. exercise, in ischemia in coronary artery disease, 194
in aortic dissection follow-up, vs. magnetic resonance imaging, 242
automatic endocardial edge detection on, in diastolic evaluation, in children, 195
catheter-related emboli in, 242
correlation between elevated serotonin and carcinoid heart disease and, 158
dobutamine-atropine stress, 254
in ischemic left ventricular dysfunction, 195
Doppler
mitral flow patterns on, left/right lateral decubitus position and, 193
in mitral regurgitation, 102
fetal, vascular ring and, 224
in infective endocarditis, in children, 50
in Marfan syndrome, 155
mitral regurgitation quantitation on, aortic outflow and, 194
M-mode
gender-specific reference values for, 155
in myocardial infarction, prognosis and, 157
on-line, in hemodynamic index assessment, 196
reference values in, for aortic root size, 102
three-dimensional, of flail tricuspid valve, 193
transesophageal
in aortic dissection follow-up, vs. magnetic resonance imaging, 242
of ascending aortic dissection, 101
intraoperative, in mitral regurgitation assessment, 156
in pulmonary vein stenosis, 102
in severe atheromatous disease of thoracic aorta, 101
of thoracic aortic dissection with completely thrombosed false aneurysm, 194
in unexplained hypotension in critical illness, 49
of valvulitis with bioprosthetic valve, in systemic lupus erythematosus, 196

Echo-Doppler sonography, of superior mesenteric artery, 193
Ectopic pregnancy, triplet, 133
Education
cross-training in, 151 (letter)
technical writing instruction in, 228

Ejaculatory duct obstruction, ultrasonographic evaluation of, 119

Electrocardiography, in prevalence analysis, for hypertrophic cardiomyopathy, 157

Embolism. See also Thromboembolism
catheter-related, 242
paradoxic, patent foramen ovale permitting, 156
Employment issues, in managed care era, 231
Endocarditis, in children, echocardiography in, 50
Endometrium, postmenopausal, transvaginal hysterosonographic evaluation of, 34
Endorectal color Doppler imaging, of rectal wall tumors, 104
Endorectal magnetic resonance imaging, vs. transrectal sonography, in prostate cancer staging, 100
Essentials of Ultrasound (Williamson), 238
Exercise echocardiography, vs. adenosine echocardiography, in ischemia in coronary artery disease, 194
Extrahepatic portal vein aneurysm, gray scale and color duplex sonography of, 93
Female infertility, arterial blood flow and, 281
Femoral arterial catheterization, patent needle tracts after, color Doppler sonography of, 160
Femoral artery injuries, ultrasonographically guided manual compression of, 161
Femur length, gestational age and in Chinese population, 127
postnatal assessment of, 198
Fetal. See also Obstetric ultrasonography
Fetal age, femur length and in Chinese population, 127
postnatal assessment of, 198
Fetal anomalies, transvaginal sonography for, diagnostic yield of, 159
Fetal echocardiography, vascular ring and, 224
Fetal growth rate, normal interval, ultrasonographic measurements for, 159
Fetal hand, assessment of, in routine ultrasound examination, 22, 51
Fetal heart, four-chambered view of, 69
Fetal intracerebral hemorrhage, sonographic and MRI diagnosis of, 196
Fetal liver calcifications, 48
Fetal urinary tract, transvaginal sonographic evaluation of, 196
Fetal videotaping, for nonmedical purposes, 142, 152 (letter), 239 (letter)
Fetal weight estimation, in term pregnancy, 7
Fetus. See also Obstetric ultrasonography
growth retardation in, uterine and spiral artery flow velocity waveforms in, 197
ovarian torsion in, ultrasonographic diagnosis of, 90
Flail tricuspid valve, three-dimensional echocardiography of, 193
Foramen ovale, patent, permitting paradoxic embolism, 156
Galbladder cancer, unsuspected, sonography of, 48, 154
Gestational age
femur length and, in Chinese population, 127
postnatal assessment of, femur length sonographic measurement and, 198
Gestational diabetes, shoulder dystocia prediction in, 243
Gray scale and color duplex sonography, in extrahepatic portal vein syndrome, 93
Hadlock's chart, validity of for Chinese population, 127
Hand examination, in routine obstetric ultrasound examination, 22, 51
Health care reform, effects of on sonographers, 231
Heart. See also Echocardiography
fetal, four-chambered view of, 69
Hemodynamic indices, on-line echocardiographic assessment of, 196
Hemorrhage, intracerebral fetal, sonographic and MRI diagnosis of, 196
Hepatic artery thrombosis, ultrasonography of, after hepatic transplantation, 12
Hepatic calcifications, fetal, 48, 49
Hepatic tumors hilar, ultrasonography vs. angiography with CT arterial portography for, 103
vasculature of, on power vs. conventional color Doppler sonography, 241
Heterotopic triplet and tubal pregnancy, 133
Hydrometrocolpos, with uterovaginal duplication, prenatal diagnosis of, 136
Hydronephrosis, obstructive vs. nonobstructive, diuresis duplex Doppler sonography in, 100
Hyperemia, soft-tissue, power Doppler sonography in, 158
Hypertension, pregnancy-induced, uterine and spiral artery flow velocity waveforms in, 197
Hypertrophic cardiomyopathy, prevalence of, electrocardiographic analysis of, 157
Hypotension, unexplained, in critical illness, transesophageal echocardiography in, 49
Hysterosonogram, transvaginal, in evaluation of postmenopausal endometrium, 34
Infertility
female, arterial blood flow and, 281
male, ultrasonographic evaluation of, 119
Inflammatory myositis, as ancillary finding on routine venous duplex ultrasonography, 179
Intestinal hernia repair, laparoscopic, sonographic evaluation of, 154
Intestinal duplication cyst, 39
Intrahepatic hemorrhage, fetal, sonographic and MRI diagnosis of, 196
Intrahepatic portosystemic shunt, transjugular, 274
Intrarenal arteries, Doppler waveform analysis of, in renal artery stenosis in transplanted kidneys, 159
Intrarenal resistive index measurements, in antepartum pyelonephritis, 99
Intrathecal growth retardation, uterine and spiral artery flow velocity waveforms in, 197
Intravenous drug abuse, complications of, color flow duplex scanning and, 199
Intussusception, duplication cyst and, ultrasonographic demonstration of, 39
Ischemic left ventricular dysfunction, dobutamine-aptropine stress echocardiography in, 195
Job security, in managed care era, 231
Kidney. See under Renal
Laparoscopic inguinal hernia repair, sonographic evaluation of, 154
Lateral decubitus position, Doppler mitral flow patterns in congestive heart failure and, 193
Left atrial size, stroke risk and, 157
Liver tumors
- hilum, ultrasonography vs. angiography with CT arterial portography for, 103
- vasculature of, on power vs. conventional color Doppler sonography, 241

Magnetic resonance imaging
- in aortic dissection follow-up, vs. echocardiography, 242
- endorectal, vs. transrectal sonography, in prostate cancer staging, 100
- of fetal intracerebral hemorrhage, 196

Male infertility, ultrasonographic evaluation of, 119

Malignant hepatic hilar tumors, ultrasonography vs. angiography with CT arterial portography for, 103

Mammography
- of phyllodes tumors, 99
- in pseudoangiomatous stromal hyperplasia, 103

Managed care, effects of on sonographers, 231

Mitrval regurgitation
- Doppler echocardiography in, 102
- echocardiography quantitation of, aortic outflow and, 194
- severity of, intraoperative transesophageal echocardiography for, 156

Mitrval valve prolapse, natural history of, 50

M-mode echocardiography
- gender-specific reference values for, 155
- in myocardial infarction, prognosis and, 157

Myocardial infarction, M-mode echocardiography after, prognosis and, 157

Myocardial velocity, tissue Doppler imaging of, color-coded measures in, 242

Myositis, inflammatory, as ancillary finding on routine venous duplex ultrasonography, 179

Nutcracker syndrome, Doppler ultrasonographic diagnosis of, 99

Obstetric ultrasonography. See also under Fetal
- amniotic fluid accumulation in first trimester and, 159
- aortic arch anomalies and, 224
- bilateral dacrocystocelecs on, 86
- Doppler, of discordant blood flow velocity in brachial arteries, in growth retardation, 50
- fetal age estimation in, femur length and, in Chinese, 127
- of fetal liver calcifications, 48, 49
- fetal ovarian torsion on, 90
- in fetal weight estimation, in term pregnancy, 7
- four-chambered view of fetal heart on, 69
- gonadal dysgenesis and campomelic dysplasia on, 72
- in heterotopic triplet and tubal pregnancy, 133
- in hydrometrocolpos with uterovaginal duplication, 136
- in intrauterine growth retardation, uterine and spiral artery flow velocity waveforms in, 197
- nonmedical use of, 142, 152 (letter), 239 (letter)

for normal interval fetal growth rates, 159
for prediction of shoulder dystocia in diabetes, 243
in pregnancy-induced hypertension, uterine and spiral artery flow velocity waveforms in, 197

Preterm labor and, 243
- routine, hand examination in, 22, 51

Sociocultural aspects of, 185

Transvaginal diagnostic yield of, 159
- evaluation of fetal urinary tract in, 196
two-vessel umbilical cord and, 260

Obstructive hydronephrosis, diuresis duplex Doppler sonography in, 100

Occupational injuries, in sonographers, 266

Ovarian torsion, fetal, ultrasonographic diagnosis of, 90

Ovaries, transvaginal ultrasonography of, 43

Paradoxical embolism, patent foramen ovale permitting, 156

Paragangliomas, carotid body, 78

Patent foramen ovale, permitting paradoxical embolism, 156

Persistent cloaca, prenatal diagnosis of, 136

Phyllodes tumors, mammographic and sonographic findings in, 99

Porta hepatis, focal hypechoic regions at, prevalence of, 155

Portal vein, cavernous transformation of, Doppler sonography in, 51, 160

Portal vein thrombosis, benign vs. malignant, ultrasonographic differentiation of, 161

Portosystemic shunt, transjugular intrahepatic, 274

Position, lateral decubitus, Doppler mitral flow patterns in congestive heart failure and, 193

Power Doppler ultrasonography. See also Doppler ultrasonography
- color vs. conventional, of liver tumor vasculature, 241
- in estimation of fractional moving blood volume, 51
- vs. mean frequency-based color Doppler ultrasonography, 154
- pyelonephritis and, in children, 197
- in soft-tissue hyperemia, 158

Preeclampsia, uterine and spiral artery flow velocity waveforms in, 197

Pregnancy. See also under Fetal; Obstetric ultrasonography
- heterotopic triplet and tubal, 133
- pyelonephritis in, Doppler sonography in, 99
- term, ultrasonic fetal weight estimation in, 7

Pregnancy-induced hypertension, uterine and spiral artery flow velocity waveforms in, 197

Preterm labor, diagnosis and management of, 243

Prostate cancer, staging of, transrectal sonography vs. endorectal MRI in, 100

Pseudoaneurysms, ultrasound-guided core biopsy of breast
- for acute unilateral epididymitis/orchitis, 48
- for scrotal inflammation, 48

Rectal wall tumors, endorectal color Doppler imaging of, 104
Renal artery stenosis
  - duplex Doppler ultrasonography in, 241
    - in transplanted kidneys, Doppler waveform analysis of intrarenal arteries in, 159
  - Renal size, fetal, transvaginal ultrasonography of, 196
  - Repetitive strain injuries, in sonographers, 266
  - Retinal detachment, preoperative ultrasonography of, 287
  - Retrocalcaneal bursitis, in psoriatic arthritis, 211

  - Saphenous vein bypass grafts, angioscopically assisted, vein mapping for, 200
  - Scrotal inflammation, Doppler imaging in, quantitative criteria for, 48
  - Serotonin, elevated, carcinoid heart disease and, cardiac catheterization and echocardiographic assessment for, 158
  - Shoulder dystocia, in diabetes, prediction of, 243
  - Shunt, transjugular intrahepatic portosystemic, 274
  - Sigmoid diverticulitis, 83

  - Sniff test, for elevated central venous pressure, 27
  - Sociocultural aspects, of obstetric ultrasound, 185
  - Soft-tissue hyperemia, power Doppler sonography in, 158

  - Sonographers
    - impact of managed care on, 231
      - professional credibility for, 98 (letter)
    - repetitive strain injuries in, 266

  - Sonography. See Ultrasonography

Staging, of prostate cancer, transrectal sonography vs. endorectal MRI in, 100

Stroke risk, left atrial size and, 157

Superior mesenteric artery, Echo-Doppler sonography of, 193

Systemic lupus erythematosus, valvulitis with bioprosthetic valve in, echocardiography in, 196

Technical writing, instruction in, 228

Testicular tumors of adrenogenital syndrome, congenital adrenal hyperplasia and, 176

  - Testis, torsed appendix, 182
  - Thoracic aorta. See also under Aorta; Aortic
    - severe atherosclerosis of, transesophageal echocardiography in, 101
  - Thoracic aortic dissection
    - with completely thrombosed false aneurysm, transesophageal echocardiography of, 194
    - echocardiographic vs. MRI follow-up in, 242
  - Thromboembolism, catheter-related, 242
  - Thrombosis
    - deep vein
      - cellulitis and, 170
      - in high-risk trauma patients, Doppler color flow imaging surveillance of, 103
      - in intravenous drug abusers, color flow duplex scanning and, 199
      - upper extremity, central lines and, 199
    - hepatic artery, ultrasonography of, after hepatic transplantation, 12
    - Tissue Doppler imaging, of myocardial velocity, color-coded measures in, 242
    - Torsed appendix testis, 182
    - Transesophageal echocardiography. See also Echocardiography
      - in aortic dissection follow-up, vs. magnetic resonance imaging, 242

  - of ascending aortic dissection, 101
  - intraoperative, in mitral regurgitation assessment, 156
  - in pulmonary vein stenosis, 102
  - in severe atheromatous disease of thoracic aorta, 101
  - of thoracic aortic dissection with completely thrombosed false aneurysm, 194

  - in unexplained hypotension in critical illness, 49
  - Transjugular intrahepatic portosystemic shunt, 274
  - Transplant, hepatic, hepatic artery thrombosis after, 12
  - Transplanted kidneys, renal artery stenosis in, Doppler waveform analysis of intrarenal arteries in, 159
  - Transrectal sonography, vs. endorectal MRI, in prostate cancer staging, 100
  - Transvaginal color Doppler ultrasonography, arterial blood flow in female infertility and, 281
  - Transvaginal ultrasonography. See also Obstetric ultrasonography
    - for fetal anomalies, diagnostic yield of, 159
    - guidelines for, 43, 152 (letter)
    - Tricuspid valve, flail, three-dimensional echocardiography of, 193
  - Triplet pregnancy, heterotopic and tubal, 133
  - Trisomies, hand abnormalities in, 22
  - Tumors. See also Cancer
    - hepatic
      - hilar, ultrasonography vs. angiography with CT arterial portography for, 103
      - vasculature of, on power vs. conventional color Doppler sonography, 241
    - rectal wall, endorectal color Doppler imaging of, 104
    - testicular, in adrenogenital syndrome, congenital adrenal hyperplasia and, 176
  - Two-vessel umbilical cord, 260

Ultrasonography
  - abdominal and superficial, American Registry of Diagnostic Medical Sonographers survey of, 18
  - benign vs. malignant portal vein thrombosis and, 161
  - bilateral intratesticular masses in congenital adrenal hyperplasia and, 176
  - of carotid body paragangliomas, 78
  - clinical effectiveness of, evaluative criteria for, 63
  - Doppler. See Doppler ultrasonography
    - duplex, color coded, vs. venography, in preoperative imaging of varicose veins, 198
    - Echo-Doppler, of superior mesenteric artery, 193
      - in elevated central venous pressure, 27
      - endorectal, of rectal wall tumors, 104
      - in estimation of fractional moving blood volume, 51
      - in evaluation of laparoscopic inguinal hernia repair, 154
      - of fetal intracerebral hemorrhage, 196
      - of fetal liver calcifications, 48, 49
      - for fetal weight estimation, in term pregnancy, 155
      - focal hypoechoic regions at porta hepatitis on, prevalence of, 1
      - future of, 1 (editorial)
      - gray scale and color duplex, in extrahepatic portal vein syndrome, 93
      - of hepatic artery thrombosis, after hepatic transplantation, 12
for hepatic hilar tumors, vs. angiography with CT arterial portography, 103
of intestinal duplication cyst, 39
in managed care era, 231
manual compression of femoral artery injuries and, 161
of phyllodes tumors, 99
in pseudoangiomatous stromal hyperplasia, 103
retinal detachments and, 287
in retrocalcaneal bursitis, in psoriatic arthritis, 211
in sigmoid diverticulitis, 83
torsed appendix testis and, 182
transrectal, vs. endorectal MRI, in prostate cancer staging,
100
transvaginal, guidelines for, 43
of unsuspected gallbladder cancer, 48, 154
venous duplex
   cellulitis and deep vein thrombosis and, 170
   inflammatory myositis as ancillary finding on, 179
Ultrasound-guided core biopsy of breast, pseudoaneurysm in, 220
Ultrasound-guided mammotomy, 113
Umbilical cord, two-vessel, 260
Uterovaginal duplication, prenatal diagnosis of, 136
Uterus, transvaginal ultrasonography of, 43
Valvulitis, with bioprosthetic valve, in systemic lupus erythematosus, echocardiography in, 196
Varicocele, ultrasonographic evaluation of, 119
Varicose veins, preoperative imaging of, color coded duplex sonography vs. venography in, 198
Vascular ring, fetal echocardiography and, 224
Vein mapping, for angioscopically assisted saphenous vein bypass grafts, 200
Venography, vs. color coded duplex sonography, in preoperative imaging of varicose veins, 198
Venous duplex ultrasonography
   cellulitis and deep vein thrombosis and, 170
   inflammatory myositis as ancillary finding on, 179
Venous thrombosis. See Thrombosis
Videotaping, fetal, for nonmedical purpose, 142, 152 (letter), 239 (letter)
Workplace issues, effects of managed care, 231
Writing, technical, instruction in, 228
