CALL FOR PAPERS

Beyond Behavior

Editors:
Joseph B. Ryan, Clemson University
Paul Mooney, Louisiana State University

Beyond Behavior (BB) is a peer reviewed scholarly journal designed specifically for practitioners (e.g., teachers, administrators, counselors, paraprofessionals) who work with children and adolescents with emotional and behavioral disorders (EBD). The goals of Beyond Behavior are to publish articles that:

- Describe research-informed academic and/or behavioral interventions and/or processes likely to improve meaningful outcomes for children with or at risk for EBD.
- Develop the instructional and/or support capacities of professionals who work with children and youth with or at risk for EBD across diverse settings and programs.
- Broaden the impact of research on practice in applied settings by making research-informed practice more accessible to diverse practitioner audiences.

BB is an official division journal of the Council for Children with Behavioral Disorders (CCBD).
