

Author Submission Checklist

Manuscripts that do not meet the requirements below will be returned to the author for corrections.

For full explanations of the requirements, see the [Author Submission Guidelines](#).

Entered in system (NOT in manuscript):

- Confirm that the submission is not under consideration in another journal
- Abstract of 100-150 words
- 2-4 content keywords, 1-3 methods keywords
- Author bios of 100-150 words per author
- Author notes
- Respond with information for Open Science statements (to be included on article but not provided to reviewers)
 - Indicate whether your de-identified data, analytic methods such as code, and study materials such as questionnaires or and other digital instruments are available to other researchers, and if so, where they can be accessed and any limitations. (For guidance on sharing data or using OSF, see <http://journals.sagepub.com/doi/pdf/10.1177/2515245918757689>.)
- Answer disclosure questions regarding whether article would be eligible for any of the following Open Sciences badges:
 - Open Data
 - Open Materials
 - Preregistered

Manuscript

- Do NOT include a title page or abstract in the manuscript file (these are entered separately into the system)
- Follow APA Style (6th edition) including headings, citations, tables, figures, references (with doi numbers; <https://doi.crossref.org/simpleTextQuery> is a search engine that can be used to identify doi numbers based on the reference list)
- All text is double-spaced and left-justified
- Mask only self-references that could be identifying
- Check alignment between reference list and in-text citations
- Cite and reference all data, program code, and other methods or content drawn from existing sources
- Provide tables at the end of the file, after the reference list
- Be sure figures are camera ready, each loaded as a separate file, and figure captions listed in the system (NOT in the manuscript)
- Disclose key aspects of the research design and data analysis (see submission guidelines document)
- Appropriately cite qualitative study data

Manuscript length limits exclude references, tables and figures. Manuscripts may be submitted as Feature Articles (≤ 9000 words), [Research Brief Reports](#) (≤ 2500 words, ≤ 4 tables or figures, ≤ 15 references), [Methods Briefs](#) (≤ 4500 words, 2-5 key readings), or [Registered Reports](#). We encourage submission of replication studies.
