

SAGE Announces Call for New Editor of the *Journal of Adolescent Research*

SAGE announces the search for a new Editor of the *Journal of Adolescent Research*. This peer-reviewed, bi-monthly publication has been servicing the field of developmental psychology in pursuit of high impact content since its establishment in 1986.

We are currently accepting editor applications for a three-year term commencing July 1, 2023.

The aim of the *Journal of Adolescent Research* is to publish informative and dynamic articles from a variety of disciplines that focus on development during adolescence (ages 10 to 18) and early emerging adulthood (18-22). We are particularly interested in papers that use mixed-methods, systematically combining qualitative and quantitative data and analyses. We also seek rigorous qualitative research using a variety of strategies including ethnography, in-depth interviews, case studies, photo elicitation, and the like. We focus on work that takes a strengths-, or assets-, based approach to adolescent development. Our goal is to expand upon the understanding of a diverse range of experiences of adolescents and emerging adults across a variety of contexts.

2-Year Impact Factor: 3.000

5-Year Impact Factor: 3.173

Applicants should send a letter of interest with an attached copy of their CV to Danielle Bath, Publishing Editor, at danielle.bath@sagepub.com by February 28, 2023. Please put “JAR Editor Application” in the email subject line.
