AUTHORSHIP CONTRIBUTION STATEMENT

This author contribution form affirms that all individuals listed as authors agree that they have met the criteria for authorship, agree to the conclusions of the study, and that no individual meeting the criteria for authorship has been omitted. In order to meet the requirements of authorship, **each author must have contributed to at least one aspect of each of the four criteria, as listed below. Please note that for criterion 1 and 2, authors only need to meet one of the two items listed**. These criteria are not to be used as a means to disqualify colleagues from authorship who otherwise meet authorship criteria by denying them the opportunity to meet criterion 2 or 3. Therefore, all individuals who meet the first criterion should have the opportunity to participate in the drafting, review, and final approval of the manuscript. Any individuals not meeting the criteria may be mentioned in the Acknowledgements section of the manuscript.

Per the criteria defined by the International Committee for Medical Journal Editors (ICJME), please note the contribution made by each author listed in the manuscript by ***typing*** **"X" into the boxes that apply.**
