

## **Organizational Research Methods Editorial Team**

**Paul D. Bliese** is a Professor in the Department of Management at the Darla Moore School of Business. He received a Ph.D. from Texas Tech University and a B.A. from Texas Lutheran University. After graduate school he worked for 22 years at the Walter Reed Army Institute of Research. Dr. Bliese has led efforts to advance statistical methods and apply analytics to complex organizational data. He developed and maintains the multilevel package for R, and has been a proponent for advancing organizational multilevel theory. He was an Associate Editor for the *Journal of Applied Psychology* from 2010 to 2017, and is currently the Editor in Chief for *Organizational Research Methods*.

**Brian K. Boyd** is Head and Chair Professor of Management at City University of Hong Kong. He received his Ph.D. from University of Southern California. His substantive research interests include strategic leadership, corporate governance, and organizational environments. He has been an Associate Editor for ORM since 2010, and served as Chair for the Academy of Management Research Methods Division as well as the Strategic Management Society Research Methods Community. In 2011, he received the Sage Publications/Robert McDonald Advancement of Organizational Research Methodology Award, with Steve Gove and Mike Hitt, for their work on macro construct measurement. He has served multiple terms on the editorial boards of several journals, including the *Academy of Management Journal*, *Strategic Management Journal*, *Journal of Management*, *Journal of Management Studies*, and others, and has been the guest editor of a half dozen special issues at *Corporate Governance: An International Review*, *Journal of Management*, and *Organizational Research Methods*.

**Steve Gove** is an Associate Professor in Management at the University of Vermont's Grossman School of Business. Dr. Gove received a Ph.D. from Arizona State University. His work broadly focuses on constructs and construct measurement in macro research. Recent publications address the conceptualization and measurement of CEO duality, highlighting the problems resulting from measuring temporally unstable variables in a cross-sectional fashion. An ongoing research stream incorporates quantitative content analysis while another addresses statistical power and measurement error. He is in his final year as treasurer of the Research Methods Division of the Academy of Management. Prior to serving as Associate Editor of *Organizational Research Methods* he served on the editorial review board of *Academy of Management Journal* and *Corporate Governance: An International Review* where he co-edited a special issue on measurement and methods.

**Thomas Greckhamer** is the Catherine Rucks Professor of Management at Louisiana State University. He earned his PhD in Management from the University of Florida. His research interests are at the intersection of strategic management and research methods. Dr. Greckhamer's research focuses on advancing and applying set theoretic configurational and qualitative methodological approaches to strategy and organization studies. His work has been published in *Strategic Management Journal*, *Journal of Management*, *Organization Science*, *Organization Studies*, *Organizational Research Methods*, *Qualitative Inquiry*, and *Qualitative Research*, among others. He is currently serving as an Associate Editor for *Organizational Research Methods*.

**Tine Köhler** is a Senior Lecturer for International Management at the University of Melbourne, Australia. She received her PhD in Industrial and Organizational Psychology from George Mason University in Fairfax, VA, USA. Dr. Köhler's research advances both quantitative and qualitative research methods, including regression, meta-analysis, and research design, as well as grounded theory, case study analysis, ethnography, and interviewing. She previously served as Associate Editor for *Academy of Management Learning and Education* and currently serves as Associate Editor for *Organizational Research Methods*. She further serves on the editorial boards of *Journal of Management Studies*, *Journal of Management Education*, and *Small Group Research*.

**Lisa Schurer Lambert** is the William S. Spears Chair of Business at the Spears School at Oklahoma State University. She earned her undergraduate degree and her Master of Management from Northwestern University, and her Ph.D. from the University of North Carolina. Dr. Lambert's scholarship has focused on the employment relationship, leadership, psychological contracts, person-environment fit theory, and research methods and has been published in premier journals, regularly presents at national and international conferences, and is a frequent CARMA instructor. Dr. Lambert served for ten years on the Executive Committee for the Research Methods Division of AOM including serving as Chair of the Division. In addition to serving as an Associate Editor for *Organizational Research Methods*, she serves on the editorial boards for the *Academy of Management Journal*, *Journal of Management*, *Journal of Applied Psychology*, *Organizational Behavior and Human Decision Processes*, and the *Journal of Business and Psychology*.

**Jonas W. B. Lang** is an Associate Professor in the Department of Personnel Management, Work and Organizational Psychology at Ghent University (Belgium) and received his doctorate from RWTH Aachen University (Germany). His work focuses on adaptability, personnel selection, modeling temporal processes, and measurement and has appeared in a number of journals such as *Journal of Applied Psychology*, *Psychological Review*, and *Psychological Science*. In addition to being an AE at *Organizational Research Methods*, he currently serves on the editorial boards of the *Journal of Applied Psychology*, *Psychological Assessment*, and *Human Performance*.

**Louis Tay** is an Associate Professor in Industrial-Organizational Psychology at Purdue University. He received his Ph.D. from the University of Illinois at Urbana-Champaign. His substantive research interests involve well-being, character, and vocational interests within and outside the workplace. He has contributed to methodological research in the areas of construct validation, scale response processes, and measurement. He has served on the editorial boards of the *Journal of Applied Psychology*, *Journal of Management*, *Psychological Assessment* and is currently serving as an Associate Editor at *Organizational Research Methods*.
