

Advanced Nanomaterials for Various Applications

Call for Papers: Special Issue

The special issue of the [Journal of Nanomaterials, Nanoengineering and Nanosystems](#) comes with the title, “*Advanced Nanomaterial for various Applications*”. It welcomes the submission of original research articles with outstanding scientific quality. The authors can report the synthesis, characterization and applications of advanced nanomaterials with new developments / new research results including negative results. The significance and novelty of the research results should be explained properly.

The special issue broadly focuses on the engineering, science, and technology of nanoscale including practical applications. Particularly on the applications oriented advanced nanomaterials which are more popular because of their properties. It strongly focuses in the emerging issues of areas such as industrial engineering, healthcare, and energy.

Intended focus and Topics:

1. Nano-fluids
2. Graphene and other Carbon nanomaterials
3. Nanomaterials of metals and metal oxides
4. Polymer nanocomposites
5. Coatings and Thin films
6. Renewable energy & Petrochemical industry nanomaterials
7. Nanomaterials for Solar cells
8. Energy Storage nanomaterials
9. Nano-photonics & Photo-catalysis
10. Biosensors and Bio-medical

Manuscript Submission

Before submission, authors should carefully read the [Submission Guidelines](#). Please note that only manuscripts of sufficient quality that also meet the *Intended focus and Topics* of this special issue and [Submission Guidelines](#) will be reviewed.

JNN SAGE website: <http://journals.sagepub.com/home/pin>

To submit your manuscript please visit the **JNN Submission Site:**
<https://mc.manuscriptcentral.com/jnn>

Deadline for submission: **01st March 2018.**

There are no fees for submission or publication of your manuscript in this special issue.

The Special Issue will be published in ESCI Ranked journal [Proceedings of the IMechE, Part N: Journal of Nanomaterials, Nanoengineering and Nanosystems](#) of SAGE publishing in Association with [Institution of Mechanical Engineers](#)

Lead Guest Editor:

Dr. T. Theivasanthi,

International Research Center, Kalasalingam University,
Krishnankoil - 626126. INDIA. Email: ttheivasanthi@gmail.com
Mobile: +91-9344643384. Web: www.theivasanthi.weebly.com

Guest Editors:

Dr. Subash C.B. Gopinath, Universiti Malaysia Perlis, MALAYSIA.

Dr. Vijayshankar Asokan, Zhejiang University, CHINA.
