Statement of Authorship

The submitting author affirms that all individuals listed as authors agree that they have met the criteria of authorship and agree to the conclusions of the study. In order to meet the requirements of authorship, each author must have contributed to at least one aspect of each of the four criteria, as listed below. **Please note that for Criteria 1 and 2, authors only need to meet one of the two items listed.** These criteria are not to be used as a means to disqualify colleagues from authorship who otherwise meet authorship criteria by denying them the opportunity to meet criteria 2 or 3. Therefore, all individuals who meet the first criterion should have the opportunity to participate in the drafting, review, and final approval of the manuscript. All authors are expected to agree to criteria 3 and 4. Any individuals not meeting the criteria may be mentioned in the Acknowledgments section of the manuscript (see Authorship section of the JVDI Instructions to Authors for more information).

Per the criteria defined by the [International Committee for Medical Journal Editors](#) (ICMJE), please note the contribution made by each author listed in the manuscript. Please *type* each role into the boxes that apply. **Do NOT respond with "yes or no" or "X" or your form will be returned.**
